

RELEASE NOTES (8.47) – 05.09.2025

Texas Health and Human Service Commission (HHSC) Clinical Management for Behavioral Health Services (CMBHS) Release Information Date: 05/09/2025		
Page or Function	Description of Change and/or User Instructions	Business Entity/User Type Impacted
CON077	<p>We created a new Deliverables page in CMBHS. The purpose of the Deliverables page is to be able to consolidate FSR's, Measures, and Other Deliverable Documents (formerly entered on Items Upload) in one single page that will show tracking records for contractually required deliverables.</p> <p>HHS Contract Managers will create the tracking records with required due dates and that data will interface to CMBHS nightly for provider viewing. At appropriate times, the provider will enter the deliverable,</p> <p>(FSR, Measure Report, or Other Deliverable Types). Received dates/statuses will be automatically tracked and Deliverable Status updates will be viewable by the provider.</p> <p>Contracts can only be viewed and submitted from the provider's administrative (parent) location in CMBHS. Users cannot access Contract Related Buttons, including Deliverables and Items Upload from CMBHS individual service sites/clinic locations. If you are not at the parent location for your organization, use Account Management > Change Location on the Administrative Toolbar to change to the parent location.</p> <p>If you select an HHSC contract from the Contract List and click the Deliverables button and the Deliverables List page is empty or has missing items, contact your HHSC Contract Manager. The user will not be able to create or upload a deliverable without a tracking record.</p>	SUD
